

Blow

Non-contact labelling

MECTEC standard Blow units are ideal where non-contact labelling is preferred e.g. on groceries and where the distance to the product is short. MECTEC Blow units are therefore seen in many bakeries and other food industries.

The solutions have the reliable, robust and easy to use design as seen on all MECTEC solutions. It is proven to give you a reliable labelling for many years to come, even in the most harsh industrial environments.

- Side, top or bottom labelling
- Labelling moving or stationary products
- Industrial robust design
- Easy and fast maintenance
- Right- and left hand version
- High speed labelling

TECHNICAL DATA - STANDARD BLOW OPTIONS

Print technologies:	Thermal transfer, Direct thermal or Non-Printing
Print resolutions:	8 or 12 dots/mm (200/300dpi)
Print speeds:	Up to 360 mm/s
Label sizes:	Up to 100 x 100 mm
Distance to product:	Up to 50 mm
Pneumatics:	6 bar compressed air
Communication interface:	2 x RS232, 1 x USB 2.0, Ethernet (optional) 31 inputs (PNP), 21 (NPN) + 10 (relay) outputs
User interface:	Graphical display with 25 languages
Overall Dimensions:	627 x 516 x 243 mm (P&A min) 627 x 616 x 263 mm (P&A max) 406 x 278 x 129 mm (Controller)

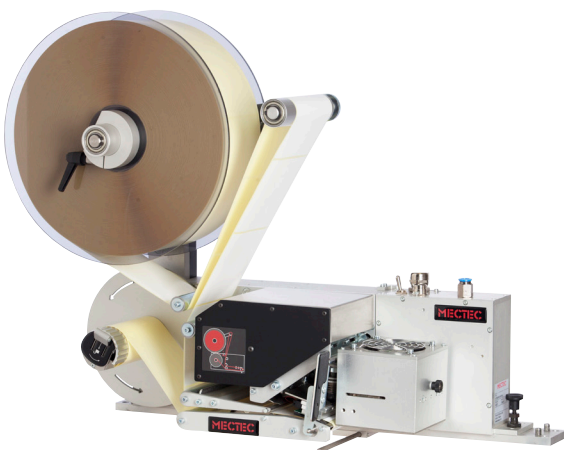

The art of applying a label

Your Print & Apply solution is only as good as the equipment you choose, together with the people who develop it, install it and provide the service and support.

During our many years of providing Print & Apply solutions around the world, we have learned that no two production flows are the same. That is why we have developed a wide range of flexible standard Blow solutions, meeting the high demands of our customers.

By using our extensive experience and highly skilled engineers we can also offer customized Blow solutions for each industry's specific needs. Industries such as:

- Bakery
- Chemicals & Plastics
- Electronics
- Engineering
- Food & Beverage
- Logistics
- Packaging
- Pharmaceuticals
- Pulp & Paper
- Timber & Wood

Above you see a standard Blow solution, DBI00. Please contact your MECTEC representative, who will be happy to tell you more about this solution and all other possibilities you have as a MECTEC customer.

Labelling bread at Tjörnbagarn

Traceability is of great importance in the bakery industry and due to the harsh environment at a bakery the quality of the labelling equipment is also very important.

Watch the video on bread loaves being labelled at Tjörnbagarn.
